

ESPERANZA UNIVERSAL — TOPICS

Esperanza Universal
Atty., M.S.W., Msc

*“The language of the Heart is feelings: pure, simple, concise feelings. Our culture teaches us to hide our feelings or to pretend that they are not present. When we block feelings, they persist and control us. They create unconscious choices and undesired circumstances. When you allow feelings to flow through you, your heart opens and you can make different choices.” **Esperanza Universal***

Esperanza uses the language of the Heart to converse with individuals, whether one-on-one, in small groups, in large audiences or in business environments. She tailors her presentation to fit the real-life and unique needs of the individual, group, or situation.

Esperanza’s presentations range in length from 30 min. to 90 min. for a key-note address to Half and Full day events to 3-Day experiential Intensives. A **partial list of topics** for each type of presentation is below:

30 min. – 90 min. Topics Include:

- **You in Your Conscious Business:** How to Create Abundantly with Peace and Joy in your Life
